

Chase Ahdunko

Major/Career

I am a current Sophomore declared in a double major of Accounting and Finance with a minor in Information Systems. I plan to be a Financial Advisor and eventually a CFO with my degrees, helping people and businesses become financially successful.

Technical Background

I've been using computers and Microsoft applications since second grade. Microsoft has been a heavy aspect of my education, leading to a moderate amount of experience with each application. I use two software applications on a regular basis. These applications are Microsoft Word and Microsoft PowerPoint. I use these applications for academic assignments and goals.

Who am I?

I was born and raised in Reno, Nevada. Living in Owasso, Oklahoma for a time. I chose the University of Nevada for financial reasons. Being a member of the indigenous tribe Caddo gives me access to the tuition fee waiver, combined with my other scholarships I get paid to attend classes here at the University of Nevada. My favorite hobbies include golf, rock climbing, and pickleball. I have a few favorite genres of music such as Indie, Country, and 00s Rock; some of my favorite artists are the SUHNS, Jordan Davis, and the Wallows. I aspire to become someone that can provide for my family doing something that I love to do. I value education heavily, I believe that knowledge is an achievement that anyone is able to do given the right amount of time.
